Roulette Reader Board

Classic Look

Beautifully styled in a brilliant gold finish, the display is the centerpiece of attraction on any roulette table.

Graphic Animations

The Graphic Display shows dynamic graphic animations of a spinning roulette wheel, a simulated flyover of the layout, and optional custom animations.

Service-free Reliability

The GRIPS display is the most reliable roulette display on the market, and requires no outside service.

Accuracy

The Optical Reader is the most accurate ever developed, and detects the correct winning number every time, every spin.

Wheel Versatility

The GRIPS display works on any type of wheel, irrespective of manufacturer, and automatically detects single '0' or double '00'.

Table Limits

Table minimums/maximums can be displayed and changed.

Drop Increase

Whenever a new display is installed, the drop increases by an average of 20%.
